TRENTINO  
ITALIAN DOLOMITES

*This very special, unique jewel of the Dolomites goes beyond expectations on all levels – contemporary design, original art, exceptional gastronomy and warm hospitality – Locanda degli Artisti is the magical miracle new hotel opening of 2021!*

# LOCANDA DEGLI ARTISTI

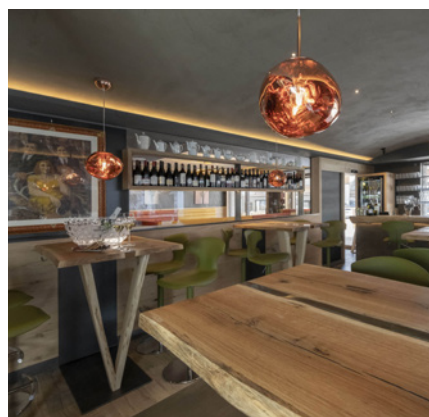

The long awaited opening of Locanda degli Artisti finally took place in May 2021 and wow- it was worth waiting for! My experience, shortly after the official opening, went beyond expectations and Family Rossi have certainly produced another gem in the Dolomites to accompany their much loved and fabled Rifugio Fuciade tucked away in the mountains not far away.

Locanda degli Artisti certainly lives up to its name. Each of the twenty suites and rooms is dedicated to a famous artist and, most importantly, contains original pieces from each. Lovers of art and sculpture and contemporary design will be in heaven and aficionados of boutique hotels with a twist will not fail to be impressed. Best not to say too much and keep some things as a secret! As I visited each room I was left aghast with how every small detail had been thought of on every level and how staying at the Locanda would be wonderful both in summer and winter.

The Rossi family love art - and it shows. They are also true foodies and, as at Rifugio Fuciade, one's dining experience is second to none at the Locanda. Fine wines from Trentino and Alto Adige (to name a few from their enviable wine collection) accompany outstanding dishes where there is an emphasis on high quality regionally sourced products combining traditional Trentino dishes with a touch of international flair. The chef is none other than... the son of the owners.

The architectural design of Locanda degli Artisti is also, in part, the brainchild of another son of the talented Rossi family! Dedication to respect for the environment and all things 'green' are another appealing element of the Locanda and great emphasis in this area has been incorporated on all levels. Materials have been sourced with great care be it the building products such as dolomite, larch and Swiss pine, the toiletries in the marvellous bathrooms, the ingredients in the exquisite dishes and the heating systems using renewable energy and even 3 Tesla Connector stations!

The location of Locanda degli Artisti is excellent. Great in the ski season as a base from which to explore the hundreds of kilometres of pistes and also ideal in the summer for anyone who loves

hiking – and in both cases the joy of staying in somewhere unique, boutique, luxurious yet low key and knowing that every morning and evening there will be a gastronomic (yet healthy) dining opportunity!

I am thrilled to include Locanda degli Artisti in my portfolio and I encourage my discerning clients to experience this stylish, original, friendly and exciting new venue in winter or summer.

## Information
