

## Villa Gelso

*Montecorice nr Castellabate, Campania*

An outstanding location, an exceptional private villa, breathtaking 360-degree views, excellent hospitality, and total privacy — Villa Il Gelso is a truly remarkable property in the heart of the enchanting Cilento region of Southern Italy.

Arriving at Villa Il Gelso, one cannot help but be captivated by the panoramic views, the position, and the natural surroundings. Upon entering, the design and interiors of this much-loved home leave a lasting impression. Renovated over several years by its charming owners together with the talented local architect Costabile Di Matteo, Villa Il Gelso stands as a unique gem for those seeking privacy, quality, and authenticity in the heart of Cilento.

From every angle the views are awe inspiring, be it to Punta Licosa on the coast or the medieval villa of Castellabate high on the hills. Outside, guests can enjoy tranquil terraces and a lovingly tended vegetable garden, perfect for preparing authentic Cilentan dishes. Every detail, from the handcrafted furnishings to the warm lighting, has been designed to create a sense of elegance, comfort, and harmony. The pool is original and stylish. Positioned on a brow above the

villa, it has been uniquely designed in keeping with the location and surrounding nature and vegetation. Swimming here early morning as the sun rises cannot be too highly recommended or as the sunsets sipping an aperitivo – bliss!

Walk into Villa Gelso and one cannot fail to be impressed by the modern design, the very high quality furnishings and décor and how nothing has been left wanting. The open plan living and dining area

enjoys ultra comfy seating, some impressive paintings and artefacts, great lighting and a sense of serenity and calm. A cleverly incorporated fireplace in one part of the living area and a spacious and fun bar adjacent to the dining are provide for fabulous gatherings of friends at any time of the year. Beyond here is the large, stainless steel professional kitchen – the perfect venue for anyone who enjoys cooking on holiday and taking advantage of the delicious local products or, alternatively, for a local cook to come in whilst guests sit back with a glass of Fiano wine and switch off from stressful modern life. Upstairs, each of the bedrooms benefits from a glorious view, the very best beds and linens and top quality shower rooms. Nothing has been left wanting and wait till you see the stylish and amusing lighting features!

I just love this place and am thrilled to have been invited by the owners to propose Villa Gelso to my wonderful clients. The surrounding area is also delightful with the coastal and friendly villages of San Marco, Oliagstro and Santa Maria di Castellebate only a short drive away. Private boat trips can be organised exploring the stunning and wild Cilento coastline or further afield to the Amalfi coast. Impressive Paestum

, steeped in thousand years history is just up the road and Castellabate (nominated as one of the most beautiful borgo of Italy) is just across the hills. The hospitality of the locals here is notable and the food is a dream with the freshly caught fish, the vegetables rich in flavour and the fresh buffalo Campania mozzarella together with crisp white wines and almond rich desserts.

Villa Gelso is a dream find and for anyone who loves Cilento, or hasn't yet visited, then it cannot be too highly recommended. You will simply love it!
